HUYNH QUOC NAM

CAREER OBJECTIVE

I am a 4th-year Information Technology student seeking a Backend Developer internship to apply my knowledge in practice, enhance my skills in programming and database management, and gain hands-on experience in software development. I am eager to learn, contribute to the team, and grow into a professional backend engineer.

PERSONAL INFORMATION

Nguyen Van Huong, Thao Dien, Tp Thu Duc, Tp Ho Chi Minh

EDUCATION

Ho Chi Minh City University of Technology
Major: Computer Science
Duration: 2022 – Present
GPA: 3.0/4.0

Nui Thanh High School
2019 - 2022

INTERESTS

- Sports & outdoor activities
- Playing video games
- Watch movies

SKILLS

Programming Languages: C/C++,
Java,
C# (ASP.NET),
JavaScript (Node.js),
HTML + CSS
Databases: MySQL, SQL Server.
Other Knowledge: MVC, RESTful API, Git/GitHub.
Foreign Languages: English (Reading technical documents, CEF B1)

PROJECTS / ACADEMIC EXPERIENCE

PC components e-commerce website: (ReactJS + ASP.NET Core + SQL Server)

- Developed RESTful APIs for user authentication, product, cart, and order management.
- Implemented role-based access control for Admin and Customer.
- Designed and optimized SQL Server database for scalability.
- Integrated frontend (ReactJS) with backend via APIs for seamless user experience.
- Source code:
